EDUCATION

Bachelor of Architecture
University of Puerto Rico
Río Piedras (UPRRP)

SOFTWARE

- AutoCAD
- Figma
- SketchUp
- Enscape
- Photoshop
- Illustrator
- InDesign

COMPETENCIES

- Technical drafting
- UX / Product design
- Design systems
- Spatial planning
- Interior detailing
- 3D visualization

LANGUAGES

- Spanish Native
- English Fluent

PROFILE

Environmental Design graduate with a background in architecture and 3+ years of professional experience in design, including web and UX/UI. Strong visual design skills, attention to detail, and experience developing design solutions from concept through digital execution. Proficient in AutoCAD and experienced in architectural drafting, visualization, and presentation.

PROFESSIONAL EXPERIENCE

UX/UI Designer

Rodgers Almer JAN 2025 - APR 2026 Remote

- Served as the company's first Product Designer, establishing design standards and improving consistency across internal and client-facing products.
- Designed enterprise applications, dashboards, and complex workflow systems for financial and operational platforms.
- Led end-to-end UX projects from problem definition and wireframing through high-fidelity prototypes and developer handoff.
- Partnered with engineers to define component specs, responsive behaviors, and design tokens, ensuring accurate implementation.
- Built and maintained a foundational design system including reusable components, typography standards, spacing, and interaction patterns.
- Conducted UX audits to identify usability issues, simplify navigation, and improve workflow efficiency.
- Used Claude AI and Figma AI to accelerate ideation, UX writing, and design exploration while validating solutions through human review.

ACADEMIC PROJECTS

Hotel Hexavista

UPRRP

HOSPITALITY / MIXED-USE

Multi-story hospitality development resolved through section-based zoning of room typologies, lobby sequence, and amenity programming. Full AutoCAD documentation produced including floor plans, interior elevations, and reflected ceiling layouts. Enscape used to develop and communicate interior lighting and material conditions.

Civic Center CCCMP

SAN JUAN, PR · UPRRP

CULTURAL INFRASTRUCTURE / 298,795 SQ FT

Large-scale civic complex organizing five programmatic strands — performing arts, civic assembly, education, commerce, and public landscape — into a legible interior and exterior spatial sequence. Design emphasized material transitions at program boundaries, threshold detailing, and the tectonic expression of structure as a spatial element.
